Quick Guide

I. Printer Installation

- 1. Prepare the Ribbon Cartridge.
- % The Ribbon Cartridge is in the accessories box.

2. Peel the protective film from the disposable cleaning roller.

3. Peel off the ribbon position tape off from the ribbon cartridge.

4. Open the printer top cover by pressing the indicated point.

5. Install the ribbon cartridge into the printer.

Close the printer top cover by pressing the indicated point.

 Open the hopper cover and load the cards on the input hopper properly. Close the hopper cover.

8. Connect the power adapter and USB cable.

Use only the power adapter provided with the printer.

Do not connect the USB cable to the computer and do not turn on the printer at this time as it may interfere with the successful installation of the driver.

It will be prompted during the following instructions on when to turn on the printer.

II. Printer Driver Installation

If connected to a network, a Windows users can operate the printer without installing the printer driver. If the PC is not connected to a network or Windows Plug & Play is not running normally, we recommend downloading the KODAK driver and installing it manually before turning your printer on.

% Plug & Play may not be supported in older versions of Windows."

Scanning the QR code will direct you to the download page for the KODAK printer driver.

1. Scan the **QR Code** or

Go to www.idprinter4u.com/download Download the "KODAK ID Printer Driver". Extract the driver and all its components (Extract All) from the ZIP file and save it on your PC. Do not install the driver from within the ZIP program.

 Navigate to the extracted files and double click on the "Driver-Install.exe" file to begin the installation.

- 3. When the "User Account Control" pop-up window opens, click "Yes".
- ※ Depending upon your computer's settings, you may be prompted to supply local admin credentials to authorize the installation of the driver.
